Municipal Water System Construction Update

Residents of Donnelsville:

The Village of Donnelsville has been working for some time to secure access to a municipal water system. This notice provides an update on construction, meters and billing, and parking restrictions.

Water Project
A construction contract has been awarded, and work has begun at the site of the water storage tower in Heistand Estates.

Clark County Ohio Utilities will construct, own, and maintain the water system.

Meters and Billing
We understand that each property will receive a water meter and that Clark County Utilities will handle billing. Your sewer bill will not be affected at this time.

Parking Restrictions
On-street parking will be restricted during construction. Water tower construction is underway, and work on the underground portion of the system is expected to begin soon.

Questions
Please direct any questions to the Village at the address listed above.
